IT Division | Intern

PROJECTS

COMPANY PROFILE & E-RECRUITMENT SYSTEM

Developed an e-recruitment and company profile website during my internship at PT Waindo Specterra. The project included a company profile, job vacancy management, job applications, interview scheduling, and applicant status management.

WEB BASED FOOD ORDERING SYSTEM

Developed a web-based food ordering system as a school project with a focus on managing food menus, customer orders, and the ordering process. Worked on the system's features and interface as part of a project-based development process.

SKILLS

Soft Skills: Problem Solving, Teamwork, Time Management, Attention to Detail.

Hard Skills: Frontend (HTML, CSS, Javascript), Backend & Database (PHP, MySQL, SQL Server), Desktop (Visual Basic.Net, Java).

Interests: Website & Desktop Development.
